Motivating Maths Day

On the 11 of January, six Year 6 girls went on an exciting maths day out with Mrs Wells. It was held at Andrews Lane and it was a wonderful experience for them; they learnt new things and met new people.

Here are some quotes from two of the girls who went on the trip:

“My favourite part was making origami paper pinwheels and solving tricky maths questions that made me think twice. I would definitely go again if I was ever given the chance. It was amazing and very educational; it was an experience I will never forget!” Grace (Willow class).

“I enjoyed a challenge called the chocolate box because it was fun and challenging. I also enjoyed it when we built a paper tower, which we had to make stand up on its own without any support. It was a great opportunity for me to learn how fun maths can be and find new skills I never knew I had” Danielle (Willow class).

Maths can be fun in and outside the classroom.
