

forest school

On Wednesdays, all the year-5s had forest school sessions. Forest school is a beautiful experience that lasts roughly two hours in the forest. In forest school, children learn very important survival skills; these include lighting a fire, building a den and many more. The year-5's last forest session was on the 25th of April. The year-5s enjoyed it a lot and commented.

Harry said, "It was very fun and enjoyable!"

Martha said, "I liked being the first to light a fire!"

Josh said, "I liked building dens!"
